

The following is an **excerpt** of the 2019 TruckSafe Standards for Standard G – Vehicle Standards (Maintenance) Management:

G.1 Vehicle Standards Management Policy

Your organisation must document and implement a Vehicle Standards Management Policy.

G.2 Controls for Identified Risks in Vehicle Standards (Maintenance) Management

Your organisation must document and implement control measures to manage identified risks to Vehicle Standards (Maintenance) Management.

G.3 Fuel Quality

(TruckSafe accredited members are eligible to claim fuel tax credits for pre-1996 heavy diesel vehicles from the ATO). Your organisation must ensure that fuel purchased for use in TruckSafe accredited vehicles is obtained from a reputable supplier.

G.4 Document Control and Record Keeping for Vehicle Standards (Maintenance) Management

Your organisation must document and implement a control system for Vehicle Standards (Maintenance) Management related documents.
